

Haven Range - Carport

Timber sizes nominal before planning and processing, other dimensions may vary dependant on individual building.

Eaves Height: (Not including brick) 2260mm (increased heights available at an additional cost)

Ridge Height: (Not including brick) Varying ridge heights depending on depth of building

Cladding

Premium ex19x125mm overlap Shiplap fixed with 45mm sherardized ring shanked nails. Rainwater skirt fitted to all backs and end walls to prevent water ingress at base of panels.

Framework

100x50mm cls timber with vertical studworks at approx 600mm centres. Wind bracing fitted on all unlined structures.

Fixing

Bolted to base by 200mm thru bolts at approximately 1.2m centres directly into concrete base. Posts attached with galvanised footplates bolted into concrete.

Openings

Carports as standard are open fronted. Openings framed with softwood posts (120 x 120mm) and supported with galvanised steel brackets. If a narrower opening for doors is required posts are replaced with shiplap clad returns, double uprights on either side of all door openings. Optional weatherboard cladding may also require addition of 100x75mm doorframe. Opening height is 2160mm excluding single course of brickwork. Barn door openings width 2400mm.

Internal Lining

Unlined as standard. Full lining in 9mm plywood is available at additional costs.

Overhang/ Canopy

Not included in standard design.

Roofing Structure

Sawn purlins are between 47x100mm C24 to 47x150mm C24 spaced at 600mm centres. All trusses fixed to cross beams by way of 100mm or 150mm timber lock screws.

Roofing Finishes

Standard roofing finish is black Onduline with matching ridges. Alternative colours are available at an additional cost. Roofing is lined with 11mm OSB.

Guttering

112mm black uPVC gutters fitted with 68mm down pipes to front elevation. Guttering to the rear elevation available at additional cost.

Treatment / Exterior Finish

All timbers with exception of any sheet material are vacuum pressure impregnated treated.
